

FILLED FRAMEWORK FOR TRANSPARENCY AUDIT -2025(ICAR-NIANP, Bangalore-560 030)*****

The RTI Act under section 4 provides a comprehensive framework for promoting openness in the functioning of the public authorities.

While Section 4(1) (a) provides a general guideline for record management, so that the information could be easily stored and retained, the sub-sections b,c and d of Section 4 relate to the organizational objects and functions. Sub-sections (b), (c) and (d) of Section 4 of the RTI Act and other related information can be grouped under six categories; namely, 1-organsiation and function, 2- Budget and programmes, 3- Publicity and public interface, 4-E. governance, 5-Information as prescribed and 6. Information disclosed on own initiative.

1. Organisation and Function

S.No.	Item	Details of disclosure	Remarks/ Reference Points (Fully met/partially met/ not met- Not applicable will be treated as fully met/partially met)

Soni, the then Deputy Director General, ICAR, New Delhi Vide letter No. 1-80/91 IA-I dated 23rd October 1992 at the Southern Regional Station (SRS) campus of ‘National Dairy Research Institute’(NDRI),</p>	<p>Fully met</p>
--	--	---	-------------------------

	<p>Bangalore by transferring the Animal Nutrition and Animal Physiology sections of Southern Regional Station of NDRI with men and material to initiate functioning of the Institute with a specific mission and mandate. About 50 acres of farm land of SRS, NDRI was transferred for setting up of the new Institute. Infrastructure was developed on this land and the Institute was shifted in August, 2003 to the newly constructed building from the temporary premises within a period of 7 years. Considering the objectives of establishing this new Institute, the research programs were reoriented more towards fundamental research areas of importance in animal nutrition and physiology. During the course of time, the Institute has made significant research achievement, in the niche areas of animal nutrition, animal physiology, biotechnology and molecular biology and has been recognized as one of the centre of excellence in these areas.</p> <p><u>Formation of the department and the HoDs</u></p> <p>After getting approved in XIth Plan EFC for formation of three divisions with HOD, the Council's approval has been received vide order NO. F. NIANP/QRT/2007-12/ATR-section/2-13-14 dated 28.09.2013. Accordingly, Animal Nutrition, Animal Physiology and Bioenergetics and Environmental Sciences divisions have been created.</p> <p>The Director is the head of the Institute supported by administrative and financial wings. To strengthen the local decision-making and research monitoring, 'Research Advisory Committee', 'Institute Management Committee' and 'Institute Research Council' play vital roles through periodical meetings with fruitful discussion in providing guidance.</p> <p><u>Committees /Commissions constituted</u></p> <p>Research Advisory Committee (RAC)</p> <p>For overall development of the Institute, thereby bringing the Institute into forefront at national level, the RAC has played a very vital role by providing valuable guidance in carrying out the research work as per the mandate and</p>

Research Advisory Committee (RAC)

For overall development of the Institute, thereby bringing the Institute into forefront at national level, the RAC has played a very vital role by providing valuable guidance in carrying out the research work as per the mandate and objectives of the Institute besides overseeing implementation of QRT recommendations and directions of the SMD of the Council. The RAC also considered recommendations of the QRT and inputs from Animal Science Division of the Council while approving the research programmes and projects.

13.	Finance and Accounts Officer, ICAR-NIANP, Bengaluru, Special Invitee.		

Institute Research Committee (IRC)

The IRC functioned under the Chairmanship of the Director of the Institute to review the research output and to consider new project proposals including externally funded projects. While the progress of the ongoing projects and new project proposals were reviewed in depth during the annual meetings, midcourse corrections and modifications were also carried out during the mid-term meetings.

A statement of the board, councils, committees and other bodies consisting of two or more persons constituted as its part or for the purpose of its advice, and as to whether meetings of those boards, councils, committees and other bodies are open to the public or the minutes of such meetings are accessible for public.

- **Details of such meetings are available in the annual reports of the institute and in the proceedings maintained with I/cPME.**

		Sl No	Query	Response			
		(a)	Details of roadmap prepared by ICAR to harness science	• Improving milk, meat and egg production through nutritional and physiological interventions.			

			and innovation for securing food and nutritional security to the nation	<ul style="list-style-type: none"> • Sexing of semen and embryos for desired sex as and when required for milk or meat production. • Development of designer animal products for human consumption. • Modeling and forecasting livestock and fish resources: Requirement and availability in India. • Generation of data base on “assessment and forecasting of feed resources at regional and national level for different production scenarios”. 		
		(b)	Details of focused areas identified by ICAR	<ul style="list-style-type: none"> • Developing plant-based nutraceuticals as alternatives to antibiotics • Assessment forecasting of feed resources at regional and National level • Biosynthesis of Nano mineral particles for livestock production • Developing chelated trace minerals for animal production and reproduction • Developing protocol for improved cryopreservation of cattle, buffalo and small ruminants semen • Stem cell research • Research for improving poultry production • Life cycle assessment of animal production under different feeding systems • Developing climate resilient livestock production system • Production of designer feed supplements • Indigenous production of LH and FSH hormone for buffalo • Developing buffalo bull fertility diagnostic chip • Developing synthetic semen extender for indigenous cattle 		

				<ul style="list-style-type: none"> • Translation and adoption of nutritional and physiological technologies for improving fertility and production in lactating animals 		
		(c)	<p>Details of technologies demonstrated and disseminated by Central and State agencies, KVKs during the last three years, year-wise and the extent of above which have assisted farmers in pushing their productivity and generating more income</p>	<p>2021-22</p> <ul style="list-style-type: none"> • Hydroponic fodder production • Technologies of silage production in plastic drums. • Areca sheath as an alternate dry fodder for livestock <p>2022-2023</p> <ul style="list-style-type: none"> • Ration balancing by using the NIANP feed charts • Pineapple fruit residue silage as fodder source for livestock • Azolla production <p>2023-2024</p> <ul style="list-style-type: none"> • Ration balancing using locally available feed ingredients. • Green fodder production and their cultivation. • Fertimin plus – a feed supplement <p>These technologies were highly useful for improving fertility and production and thus increase the income of farmers.</p>		

2. Information on training of farmers conducted by ICAR Institutes during 2023-24 (Replied on 26.7.2024). Diary No. U2373			
Number of ICAR Institutes who conducted farmers' trainings	Number of trainings organized	Number of farmers trained	Names of crops / enterprises on which training programmes organized
ICAR-NIANP	07 (seven)	248 (two hundred forty-eight)	Dairy Animals <ul style="list-style-type: none">• Clean milk production• Feeding management and fodder production• Nutritional management of dairy animals• Reproductive management of dairy animals• Prevention and management of diseases in dairy animals
3. Rajya Sabha Question starred Diary 3094 (Replied on 31.7.2024)			
Sl. No.	Question	Reply	
(a)	Whether the Government is taking	Yes.	

			any measures to address the shortage of green fodder in India, particularly in light of the significant growth in the dairy industry over the past few years?		
		(b)	If yes, provide details; if not, reasons thereof	<p>Efforts have been made by this institute for fodder development and alternate feed resources for dry fodders and green fodders for livestock</p> <ul style="list-style-type: none"> ➤ Evaluation of grain sprouts as fodder for livestock ➤ Micronutrient (zinc)-enriched fodder (maize and jowar): Soil fortification with zinc resulted in increased zinc content in fodders as well as higher biomass yield. ➤ Utility of drought tolerant crops like perennial jowar and multi-cut bajra demonstrated in several agro-climatic zones (Karnataka, AP, Odisha & TN) for enhancing fodder cultivation for livestock feeding. ➤ Distributed fodder seeds of high biomass production (variety: CoFS-31). ➤ Effective utilization of fruit residues like pineapple and jack demonstrated and propagated in Karnataka. ➤ Popularization of fodder trees like Sesbania, and Melia in Karnataka and Odisha ➤ Areca sheath as an alternate dry fodder for lactating animals <p>Apart from fodder cultivation, livestock farmers are encouraged to conserve their surplus green fodder by making silage for lean period feeding.</p> <p>Farmers were trained on 'Azolla production, grain sprouts, hydroponic fodder and silage preparation'</p> <p>The Institute regularly organized training programme on "Fodder management in dairy animals" for livestock farmers.</p>	

		(c)	Whether the ministry has taken any steps to mitigate the impact of climate change on livestock feed production, considering its implications for both animal health and the dairy industry and	<p>Yes.</p> <p>ICAR/Government is aware about the various components which contribute to the greenhouse gas emissions from the dairy sector which cause climate warming and thus interventions have been taken up to mitigate this enteric methane emission from animals.</p>	
		(d)	If yes, provide details; if not, reasons thereof?	<p>The Government of India through Indian Council of Agricultural Research (ICAR) has funded a project on 'Estimation of Methane Emissions under Different Feeding Systems and Development of Mitigation Strategies' since 2007 and the project is implemented at the various centres (Karnataka, Tamil Nadu, Gujarat, Rajasthan, Punjab, Maharashtra, Uttar Pradesh, and Haryana) in the country. One of the major aims of the project was to assess the state and species wise emission of enteric methane from Indian livestock. This recent estimate revealed that Indian livestock annually emit about 9.25 Tg (Teragram) of enteric methane.</p> <p>Indian Council of Agricultural Research (ICAR) has developed various phyto-based anti-methanogenic products and technologies, which were tested in small and large ruminants at the organized farm as well as in field conditions. Harit Dhara, Tamarin Plus, Tropical tree leaves (Neem, Banyan, Jamun, Jackfruit, Som), AviBattika and seaweeds are some of the phyto-based products/technologies developed by the ICAR. The inclusion of these phyto-based anti-methanogenic products/technologies in the diet of cattle, buffalo and sheep led to a reduction of 17-20% in daily enteric</p>	

			methane emission. Ministry of Fisheries, Animal Husbandry and Dairying issued advisory to the State Animal Husbandry Secretary to adopt the use of Harit Dhara and Tamarin Plus for the inclusion in diet and few of the above phyto-based anti-methanogenic products have already been licensed for the commercial production by various companies. These green feed supplements will help to mitigate the adverse impact of future climate warming.

8. Rajya Sabha Diary No. U4393: 7 Agricultural Plans & Emerging challenges (Replied on 11.12.2024)

	Question	Reply
(a)	Whether it is true that the Cabinet has approved 7 agricultural plans with an outlay of Rs. 14,000 crores	Yes
(b)	Details of emerging challenges that are going to be addressed through above plans	<ul style="list-style-type: none"> • To establish the climate change impact on livestock and developing amelioration strategies to sustain small ruminant production • To develop strategies to improve nutrient availability and utilization in livestock • Nutritional and physiological interventions for enhancing reproductive performance in animals • Estimation of methane emission under different feeding systems and development of mitigation strategies • To develop, update and standardize meat, fibre and skin technologies in small ruminants • Genetic evaluation and improvement of indigenous goat and sheep breeds through selective breeding at farm level (nucleus flock) and propagation of elite germplasm • To provide referral and consultancy services on sheep

				<p>and goat production and product technologies.</p> <ul style="list-style-type: none"> • Enhancing quality and safety of meat and meat products, and effective animal by-products utilization • Development of value-added meat products for promoting entrepreneurship and strengthening meat value chain • To develop and transfer improved technologies on goat and sheep production to stakeholders <p>The institutes under the sub-scheme are actively involved in cutting edge research in the fields of animal nutrition and physiology including male fertility assessment through gene chip-based diagnostic, production of quality embryos and stem cells for enhancing animal productivity and basic research models, semen extender for buffalo, development of desired sex embryos, national strategies/recommendations to reduce the enteric methane emission from livestock, safer alternative to the feed antibiotics, diagnostics and ameliorating technologies for thermal stress in livestock as well as identification of climate resilient livestock species. In view of increasing demand for small ruminant meat and milk there is a need for enhancement of infrastructure for hygienic slaughter, value-addition, processing and marketing will be required. The institutes also strive for enhancing the farmers' income by providing improved genotypes, training and skill development, validated area specific technologies and optimal packages of practice to the sheep and goat farmers. NRC on Meat is devoted for meat science research and has relevance of meat sector, which has increased in the country due to</p>	
--	--	--	--	---	--

			<p>changes in livestock rearing purpose and functions necessitated by socio-economic changes, increasing urbanization, mechanization in agriculture, changes in crop production and land utilization pattern due to increasing human population and diversification in land use.</p> <p>Outputs:</p> <ul style="list-style-type: none"> ➤ In situ / ex situ conservation of important breeds ➤ Livestock and poultry improvement ➤ Identification of genetic markers and development of diagnostic kits for livestock and poultry disease diagnosis, adulterants and environmental pollutants ➤ Development of resource- based region-specific feeding modules including feed additives for Improving Productivity ➤ Standardization of AI protocol and conducting its field validation (Cattle, buffaloes, pigs, yak, sheep, mithun and equine) ➤ New and improvised methods including Identification mechanism for enhancing reproductive efficiency ➤ Production of animal products and processes (milk, meat, wool) 	
		(c)	<p>Whether there is any State-specific programmes /allocation</p>	Plans are Nation-specific

	(d)	If so, details thereof.	--
--	-----	-------------------------	----

9. Rajya Sabha Question no. S4361 (Replied on 06.03.2025)

Sl No	Questions	Answer
a	The specific financial allocations by the government towards R&D in emerging technologies such as quantum computing, AI and robotics in the last three years, the details thereof;	NIL
b	Whether the government has established or plans to establish dedicated research institutions or innovation hubs to focus on the development of quantum computing, AI and robotics, if so, the details thereof and if not, the reasons therefor;	--
c	The governments support mechanisms for startups working on innovations in quantum computing, AI and robotics, including grants, funds and tax incentives, and how many such startups have received government support in the past three years?	NIL

10. Effects of Chemical Fertilizers on Animal Health: Diary No. 2974, Shri Trivendra Singh Rawat

a)	Whether the Government is aware of the harmful effects of chemical fertilizers, particularly urea, on animal health if so,	Yes. Urea toxicity in animals has been studied. Based on the urea supplementation on animal performance, safe levels of adding

			the details thereof;	urea to concentrate and whole diet dry matter has been fixed as 3% and 1% respectively. BIS has also set the above urea level in concentrate mixture.		
		b)	Whether the Government is conducting training programmes to make cattlemen and farmers aware about balanced use of urea and safe animal fodder, if so, the details thereof;	Yes. Trainings on urea ammoniation of straw using urea, provided to the farmers at the field level.		
		c)	Whether the Government is implementing any special scheme to promote the use of natural or organic fertilizers to avoid any harmful effects on animals health, if so, the details thereof;	NA		
		d)	Whether the Government has proposed to provide any compensation of financial assistance to cattlemen to safeguard them from such incidents; and	NA		
		e)	If so, the details thereof?	NA		

11. Rajya Sabha Starred/Unstarred Dy.No. S 1868 on "Agricultural R&D Institutes"		
(a)	Whether the Agricultural Research and Development Institutes are working for agricultural development in Karnataka	Yes.
(b)	if so, the details thereof, location-wise; and	<p>ICAR-NIANP, Bangalore under Animal Sciences R & D Institutes is working for agricultural (Livestock) development in Karnataka:</p> <p>1. ICAR-NIANP, Bangalore, Karnataka: Involves in carrying out basic and fundamental research in Animal Nutrition and Physiological aspects for enhancing livestock productivity. The institute main objectives are to carry out quantitative and qualitative assessment of feed resources and to develop districtwide information system; to enhance reproductive efficiency of livestock through physiological and nutritional interventions and to address the issues of feed quality and safety.</p>
(c)	the details of agriculture related works done by the said Agricultural R&D Institutes during the last four years?	<p>The following works have been done at the institute in the three divisions of 1. Animal Nutrition, 2. Animal Physiology and 3. Bioenergetics and Environmental Sciences:</p> <p>Animal Nutrition: Estimated feed resource availability, revised and updated the ICAR nutrient requirement, developed feed supplements for enhancing fertility and milk</p>
