

DDG (AS) Chaired the Annual Review Meeting of Outreach Methane Project at ICAR-NIANP

Annual Review Meeting of ICAR sponsored outreach project titled 'Estimation of methane emissions under different feeding systems and development of mitigation strategies' was organized at the ICAR-National Institute of Animal Nutrition and Physiology, Bengaluru under the Chairmanship of Hon'ble DDG (AS) Dr. Raghavendra Bhatta on 17th April 2025. In the opening remarks, DDG (AS) appreciated the research work under this project, yielded many methane mitigation technologies, publications, patents, trainings. Dr. Bhatta expressed that a cluster of 5-6 centres as in this project can effectively execute the All India Coordinated Research Project and accomplished the research objectives. Further, DDG (AS) applauded the efforts of lead centre for the commercialization of technologies especially of Harit Dhara to the five firms through which the technology is adopted in 17 states of the country.
