

ICAR-NIANP Organized Technical Workshop on Fodder

A customized technical workshop was organized for the field officers of Karnataka Milk Federation (KMF) on the importance of fodder and its management for economic dairying. The programme was arranged in three batches (9th, 12th and 14th June 2023) and a total of 103 officers participated. The Importance of dry fodder and its enrichment, newer varieties of green fodder and their cultivation practices were dealt in detail. The programme included a visit to the fodder farm of ICAR-NIANP and demonstration of silage making in drums. In each batch of training, an interactive session was arranged for the exchange of ideas and future needs. The inaugural session was graced by Dr Raghavendra Bhatta, Director, ICAR-NIANP and Dr Basavaraj, Director, KMF other Senior Officers of KMF. The programme was coordinated by Dr NKS Gowda and Dr K Giridhar.
