

ICAR-NIANP, Bengaluru organized workshop on “IPR and Copyright Issues in Animal Science”

Institute Technology Management Unit of ICAR-National Institute of Animal Nutrition and Physiology Bengaluru conducted a workshop on “IPR and Copyright Issues in Animal Sciences” on 9 February, 2023. The workshop was organized for the benefit of scientists for creating awareness about the intellectual property and copyright requirements, its benefits to the research institutes and clarifying doubts about the procedures and commercialization of these IPs. The workshop was chaired by Dr. Raghavendra Bhatta, Director, ICAR-NIANP. The first deliberation was delivered by Dr. Ashwini Siwal, Assistant Professor & Director of Entrepreneurial Law Clinic, University of Delhi on Indian Copyright law and implications for research institutes. Different forms of IP in research institutions, their protection and advantages for public research organization was covered by Dr. Yashwant Dev Parmar, Scientist F and Head, Patent Facilitating Centre, TIFAC, New Delhi. Dr. Vikram Singh, Senior Scientist from IP&TM Division of ICAR has covered the IPR portfolio management and its impact on Agricultural research. During the workshop, Institute scientists interacted with the experts upon the issues in creating, protecting and managing the different forms of IP.
