

Two of ICAR-NIANP Scientists are listed in world's top 2% scientist list

Dr Raghavendra Bhatta

Dr VeerasamySejian

According to a study published by Stanford University researchers *Updated science-wide author databases of standardized citation indicators* published in PLoS Biology journal, 32 scientists from Indian Council of Agricultural Research were featured in the list. Two scientists from ICAR-National Institute of Animal Nutrition and Physiology (ICAR-NIANP) **Dr Raghavendra Bhatta**, Director, ICAR-NIANP and **Dr. Veerasamy Sejian**, Senior Scientist are among the top 2 percent scientists' in the world. This large database created by experts at Stanford University based on data from Scopus that ranks journals and gives a citation index. These include information on the number of citations, H -Index, co-authorship and a composite indicator. The results were published in the October 2020 issue of PLoS Biology and the study classified researchers from 22 scientific fields and 176 sub-fields. ICAR-NIANP feel proud to congratulate eminent scientists for their achievement that came on the Silver Jubilee Year of establishment of the Institute.

The entire list created by Stanford University and released recently in the journal PLOS and can be accessed at this link:<https://journals.plos.org/plosbiology/article?id=10.1371/journal.pbio.3000918>
